FRANCIS
GARY
POWERS

After ten years of silence, the U-2 spy pilot tells his story.

No pilot had ever flown higher than Francis Gary Powers. And no man's reputation ever sank lower than his after he was shot down over Russia on May 1, 1960. Now America's most famous spy pilot reveals all the startling details of his training . . . his missions . . . and his trial and imprisonment. In a book certain to shock the nation, Powers asks hard questions that must be answered if America is to avoid another incident like U-2. Or Pueblo.
